[Sustainable Health Review Panel—Interim Report](#)

In June 2017, the Government of Western Australia announced the Sustainable Health Review to prioritise the delivery of patient-centred, high quality and financially sustainable healthcare across the State. Following extensive engagement with stakeholders across Western Australia, the Sustainable Health Review Panel has now published its Interim Report. The Report presents the Panel's initial observations, preliminary directions, recommendations for immediate action and areas for further work to develop a more sustainable WA health system.....[more here](#).

[NHMRC Endorsed Fed Dept of Health Pregnancy Care Guidelines](#)

The NHMRC has endorsed the Federal Australian Government Department of Health pregnancy care guidelines. This site is very user friendly and contains all possible antenatal guidelines to cover virtually all common screening issues as well as common non life threatening conditions.

[Welcome to Country](#)

We recently saw Shaun Nannup perform the Welcome to Country at a WA Health networks event. His interpretations and observations upon that around us sincerely opened our eyes and we wanted to share this with you all. The link is to Shaun's and Roslyn's journeys through life and the programs they run for anyone to attend....

[Toolkit for provision of resources for migrant women](#)

This is a great resource for migrant women with lots of links to helpful sites for professionals and patients alike.

[RESEARCH—Milkman—an app for supporting breast feeding](#)

This is a most interesting APP to engage the father of the baby in breast feeding This App was developed for use in a Healthway funded breastfeeding intervention, targeting fathers conducted by Jane Scott and colleagues at Curtin University and Telethon Kids. Well worth a look at and if you know someone who would like to fund the final development please [email jane](#)

[WA Pregnancy Birth and Your Baby Book](#)

The WA Pregnancy Birth and Your baby Book is available to order. This book was originally developed by KEMH. SOSU and Kate Reynolds have further developed the document to ensure it is as generic as possible to suit all WA pregnancy sites. SOSU is coordinating the first order so if you would like to order these books for your site contact SOSU before 12th November.

[The Dirty Dozen in CTG misinterpretation](#)

(disclaimer)

The aim of this review is to explore the different aspects of human factors and how each contributes to CTG misinterpretation. We will be using a framework devised by Gordon DuPont called the Dirty Dozen. These are the 12 most common causes of error within aviation maintenance: Lack of communication, complacency, lack of knowledge, distraction, lack of teamwork, fatigue, lack of resources, pressure, lack of assertiveness, stress, lack of awareness, norms. We will discuss[Read more here](#)

Thought for the day.....Departmental heads can be Custodians or Guardians, building networks to support and propagate their departments. Some act as Owners building walls to protect them and 'their' departments. Which one do you know?
